Prescription Drug List
Quick-Reference Guide**

Advantage Three-Tier

Your Prescription Drug List:

Helping you get the most out of your pharmacy benefit.

This Prescription Drug List (PDL) outlines the most commonly prescribed medications for certain conditions and divides them into tiers. Your costs may change depending on a medication's tier placement.

To help you better use your UnitedHealthcare pharmacy benefit, this guide answers commonly asked questions about your PDL.

Go to myuhc.com® for complete and up-to-date PDL information

Since the PDL may change, we encourage you to visit our website, myuhc.com. This website is the best source for up-to-date information about the medications your pharmacy benefit covers, possible lower-cost options, and how the cost of medications compare.

The screenshot displays the myuhc.com website interface. At the top, there is a navigation bar with tabs for Home, Claims & Accounts, Physicians & Facilities, **Pharmacies & Prescriptions** (circled in red), Benefits & Coverage, Personal Health Record, and Health & Wellness. Below the navigation bar, the user's name "Hello, Carissa" is displayed. To the right, there are utility links: Message Center (unread), Account Settings, Print, Help, Contact Us, Feedback, and Sign Out. The main content area is divided into several sections:

- My Coverage:** Active 07/01/11, More Details
- Plan Name:** Choice Plus
- Group/Account:** 0166594
- Member ID:** 854401172
- Plan Details:** Account Balances, Benefit Details
- Deductible:** \$1600 Individual
- Out-of-Pocket Max:** \$2200 Individual

A central image shows a woman sitting on a couch, looking at her smartphone, with the text "myuhc.com now on smartphones" overlaid. To the right of this image is a section titled "What would you like to do today?" with several service buttons: View My Claims, View Online Statement, View Account Balances, Print an ID Card, Health Assessment, Find a Doctor, Manage My Prescriptions, QuickenHealth Expense Tracker, Treatment Cost Estimator, Extra Programs & Discounts, and Your Rewards for Health.

At the bottom, there is an "Information Center" with a "View All" button and a list of links: Need to contact HR Direct? Here's how!, myuhc.com's mobile - Convenient Smartphone Access to Benefit and Provider Information, This month's tip from The Dr. Oz Show: The Confusing World of Supplements, Coverage When Traveling Internationally, Coverage for Preventive Care, and Oral health videos -- interesting and informative. To the right, there are "Related Web Sites" for African American Health and SourcedWomen, and "Other Languages" including Español, 中文, 한국어, and Tiếng Việt. A "Live Nurse Chat" button is also present, with a "Go" button at the bottom right.

Welcome to your 2012 Prescription Drug List

At UnitedHealthcare, we want to help you better understand your medication choices. Your pharmacy benefit offers flexibility and choice in determining the right medication for you. To help you get the most out of your pharmacy benefit, we've included some of the most commonly asked questions about the PDL.

What is a PDL?

A PDL is a list of commonly prescribed medications placed into tiers. The PDL includes both brand and generic prescription medications approved by the U.S. Food and Drug Administration (FDA). The PDL is reviewed periodically and may change. It is created at a point in time, is not a complete list of medications and not all medications listed may be covered under your plan. If you have pharmacy benefit coverage with UnitedHealthcare, please look at your benefit plan documents provided by your employer or health plan to see what medications are covered under your plan. Where differences are noted between this PDL quick-reference guide and your benefit plan documents, the benefit plan documents will govern. You may also log on to myuhc.com or call the toll-free member phone number on the back of your health plan ID card for more information.

If you are not currently enrolled with UnitedHealthcare for pharmacy benefit coverage, you may go to welcometomyuhc.com for additional information during your open enrollment period or you may contact your employer or health plan for additional information.

How do I use my PDL?

When choosing a medication, you and your doctor should consult the PDL. This guide is organized by common medical conditions. Then, within each medical condition section, medications are listed by tier.

If your medication is not located in the PDL please log on to myuhc.com or call the toll-free member phone number on the back of your health plan ID card.

What are Tiers?

Tiers are the different cost levels you pay for a medication. Each tier is assigned a cost, which is determined by your employer or health plan. This is how much you will pay when you fill a prescription. Tier 1 medications are your lowest-cost options. If your medication is placed in Tier 2 or 3 look to see if there is a Tier 1 alternative. Discuss your options with your doctor.

Check your benefit plan documents to find out your pharmacy plan costs.

Tier 1

Your lowest-cost medications

Tier 2

Your midrange-cost medications

Tier 3

Your highest-cost medications

Are there plans that don't have three tiers?

Some plans have a two-tier pharmacy benefit rather than a three-tier pharmacy benefit. Generally, a two-tier pharmacy benefit plan does not cover medications listed in Tier 3 of this PDL. A two-tier pharmacy benefit plan covers one tier at the lower-cost and covers a second tier at a higher-cost. In addition, some plans have a four-tier prescription plan or additional medication lists that should be referenced. Check your benefit plan documents or log on to myuhc.com for information about your benefits.

Who determines medication tier placements?

The UnitedHealthcare PDL Management Committee makes tier placement decisions. The PDL Management Committee is comprised of senior level UnitedHealth Group physicians and business leaders. The Committee's goal is to help ensure access to a wide range of medications, while helping to control health care costs for you and your employer or health plan.

What factors impact tier placement decisions?

The PDL Management Committee decides tier placement based on several factors including:

- ▶ **Clinical information** from the UnitedHealthcare Pharmacy and Therapeutics Committee about the safety and effectiveness of different medications.
- ▶ **The medication's costs** and other economic factors.

When do medications change tiers?

The PDL quick-guide is updated twice a year, January 1st and July 1st. Medications may move to a higher tier or be excluded from benefit coverage on these dates. Medications can move to a lower tier at any time throughout the year. Throughout the year we also review generic and brand-name medications and decide which tier each should be placed. If a new generic launches, tier changes can occur at that time for its brand counterpart. These reviews may cause medications to change tiers at any time.

When a medication changes tiers, you may have to pay a different amount for that medication. These changes may occur without prior notice to you. For the most current information on your pharmacy coverage, please call the toll-free member phone number on the back of your health plan ID card or visit myuhc.com.

Why are there notations (SL, N, etc.) next to certain medications in the PDL, and what do they mean?

As you go through this list, you might notice some medications are noted with symbols next to them. The notations refer to our pharmacy programs. Your benefit plan determines how these medications may be covered for you but the symbols are guidelines to help you check what medications may be impacted.

To learn more about a pharmacy program or to find out if it applies to you, please visit myuhc.com or call the toll-free member phone number on the back of your health plan ID card.

Here is a quick symbol overview:

PDL Symbols

1/2T	Eligible for Half Tablet Program	P	Progression Rx
DSN	Designated Specialty Network	RS	May be eligible for the Refill and Save Program
E	May be excluded from coverage	SDP	Select Designated Pharmacy
MC	Multiple copay applies	SL	Supply limit
N	Notification or Prior Authorization required*		

*Depending on your benefit you may have notification or prior authorization requirements for select medications.

Why is the medication that I am currently taking no longer covered?

Medications may be excluded from coverage under your pharmacy benefit. For example, a medication may be excluded from coverage when it is therapeutically equivalent to another prescription medication or an over-the-counter (OTC) medication. There may be alternatives on the PDL or OTC medications that are right for your treatment.

Should I talk to my doctor about OTC medications?

An OTC medication may be the right treatment for some conditions. Talk to your doctor about OTC options. These medications are not covered under your pharmacy benefit, but they may cost less than your out-of-pocket expense for prescription medications.

What is the difference between brand-name and generic medications?

Generic medications contain the same active ingredients as brand-name medications, but they often cost less. After the patent on a brand-name medication expires, other companies can manufacture an FDA-approved and chemically-equivalent version of the medication. These types of medications are called generic medications. Many times, the same company that makes a brand-name medication also makes the generic version.

What if my doctor writes a brand-name prescription?

The next time your doctor gives you a prescription for a brand-name medication, ask if a generic equivalent or lower-tier alternative is available and if it might be right for you. Generic medications are usually your lowest-cost option, but not always. Check myuhc.com to make sure.

Are you taking a specialty medication?

Specialty medications are managed through our Specialty Pharmacy Program which offers personalized member support. The program also offers access to on-call pharmacists available 24 hours a day, robust clinical and adherence programs and support coaching on lower-cost medication options. Visit www.uhcspecialtyrx.com or call 1-866-429-8177 to learn more. Please note your specialty medication may not be listed in this guide. Please log on to myuhc.com for more information.

How do I access updated information about my pharmacy benefit?

Since the PDL may change, we encourage you to visit myuhc.com or call the toll-free member phone number on the back of your health plan ID card for more current information.

Log on to myuhc.com for the following pharmacy information and tools:

- ▶ Pharmacy benefit and coverage information
- ▶ Possible lower-cost medication alternatives
- ▶ A list of medications based on a specific medical condition
- ▶ Medication interactions and side effects
- ▶ Locate a participating retail pharmacy by zip code
- ▶ View your prescription history

And, if mail order is included in your pharmacy benefit, you can also:

- ▶ Refill prescriptions
- ▶ Check the status of your order
- ▶ Set up e-mail reminders for refills
- ▶ Manage your account

What if I still have questions?

Please call the toll-free member phone number on the back of your health plan ID card. Representatives are available 24 hours a day (except Thanksgiving and Christmas).

In certain documents, the Prescription Drug List (PDL) was referred to as the "Preferred Drug List (PDL)." This change in descriptive terms does not affect your benefit coverage.

Medications are categorized by common therapeutic conditions in this PDL for ease of reference only. These categories do not determine coverage for the medication for your condition. Your benefit plan determines how these medications may be covered for you.
