These services come at no additional cost when you purchase medical coverage through UnitedHealthcare. They can help you save both time and money.

- **Pre-Tax Premium Plans.** These plans allow you and your employees to pay your premiums on a pre-tax basis, which lowers your taxable income under Section 125. You can reduce your payroll-related taxes, and your employees can decrease their taxable income and increase their take-home pay.
- **COBRA administration.** We offer streamlined administration and efficient record-keeping, so you can focus on managing and growing your business, not on the many administrative responsibilities required by COBRA.
- **Flexible Spending Accounts (FSA).** Our FSA services include planning, implementation, communication, administration, compliance and maintenance.
